

CCISO CERTIFIED CHIEF INFORMATION SECURITY OFFICER

<h2>What is CCISO? </h2>	<h2>Course Content </h2>	<h2>Who's It For? </h2>						
<p>The EC-Council Certified Chief Information Security Officer program is designed to bring middle managers up to the level of Executive Leaders & hone the skills of existing InfoSec leaders. The CCISO program was developed by sitting CISOs to train the next generation of leaders.</p>	<p>CCISO is not a technical course but a leadership course designed specifically for experienced InfoSec professionals. The CCISO course covers the 5 CCISO Domains with deep dives into scenarios taken from the experience of the CISOs who contributed to the building of the Body of Knowledge, course, & exam.</p>	<p>The CCISO program is for executives looking to hone their skills & learn to better align their information security programs to the goals of organization as well as aspiring CISOs. Other information security management certification programs focus on middle management. CCISO focuses on exposing middle managers to executive-level content as well as encouraging existing CISOs to continually improve their own processes & programs.</p>						
<h2>Experience Requirements </h2>	<h2>5 CCISO Domains </h2>	<h2>Exam Information</h2>						
<p>In order to sit for the CCISO exam, applicants that attend training must apply via the CCISO Eligibility Application showing 5 years of experience in at least 3 of the 5 CCISO domains (experience can be overlapping).
