

PECB

PECB Certified ISO/TS 29001 Lead Implementer

Master the implementation and management of Quality Management Systems for petroleum, petrochemical and natural gas industries, sector-specific for product and service supply organizations (OGQMS) based on ISO/TS 29001

Why should you attend?

ISO/TS 29001 Lead Implementer training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining an Oil and Gas Quality Management System (OGQMS) based on ISO/TS 29001. During this training course, you will also gain a thorough understanding of the best practices of Oil and Gas Quality Management Systems and be able to help an organization to show commitment to quality by preventing defects and reducing variation and waste in the supply chain.

After mastering all the necessary concepts of Oil and Gas Quality Management Systems, you can sit for the exam and apply for a "PECB Certified ISO/TS 29001 Lead Implementer" credential. By holding a PECB Lead Implementer Certificate, you will be able to demonstrate that you have the practical knowledge and professional capabilities to implement ISO/TS 29001 in your organization.

Who should attend?

- Managers or consultants involved in Oil and Gas Quality Management
- Expert advisors seeking to master the implementation of an Oil and Gas Quality Management System
- Individuals responsible for maintaining conformance with OGQMS requirements
- OGQMS team members

Course agenda

Duration: 5 days

Day 1 | Introduction to ISO/TS 29001 and initiation of an OGQMS

- Course objective and structure
- Standard and regulatory framework
- Oil and Gas Quality Management System (OGQMS)
- Fundamental Principles of Quality Management
- Initiating the OGQMS implementation
- Understanding the organization and clarifying the objectives
- Analysis of the existing management system

Day 2 | Plan the implementation of an OGQMS

- Leadership and approval of the OGQMS project
- OGQMS Scope
- Policies for quality management
- Definition of the organizational structure of Quality Management
- Definition of the document management process
- Design of quality controls and drafting of specific policies & procedures

Day 3 | Implementation of an OGQMS

- Communication plan
- Training and awareness plan
- Product Realization
- Operations Management

Day 4 | OGQMS monitoring, measurement, continuous improvement and preparation for a certification audit

- Monitoring, measurement, analysis and evaluation
- Internal audit
- Management review
- Treatment of problems and non-conformities
- Continual improvement
- Preparing for the certification audit
- Competence and evaluation of implementers
- Closing the training

Day 5 | Certification Exam

Learning objectives

- Acknowledge the correlation between ISO/TS 29001 and other standards and regulatory frameworks
- Master the concepts, approaches, methods and techniques used for the implementation and effective management of an OGQMS
- Learn how to interpret the ISO/TS 29001 requirements in the specific context of an organization
- Learn how to support an organization to effectively plan, implement, manage, monitor and maintain an OGQMS
- Acquire the expertise to advise an organization in implementing Oil and Gas Quality Management System best practices

Examination

Duration: 3 hours

The "PECB Certified ISO/TS 29001 Lead Implementer" exam fully meets the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competency domains:

- Domain 1** | Fundamental principles and concepts of an Oil and Gas Quality Management System (OGQMS)
